

POSTCODER WEB SOAP – INTERNAL PER CLICK

PREMISE LOOKUPS		
Included Lookups	2,500	5,000
Cost	£250	£350

OR

POSTZON LOOKUPS		
Included Lookups	2,500	5,000
Cost	£150	£250

Please Note: Due to licence restrictions, the above per click payment plans are only available for Internal Use within your company (CRM software, Accounts Packages, Extranet, Intranet etc) and are only available until 31st December 2009. There is a maximum allowance of 5,000 Premise and/or 5,000 Postzon lookups in any 12 month period. To discuss this please contact us on 01508 494488.

These are the different search functions available:

Type of Search
Rapid Addressing
Premise level lookup from a Postcode
Grid reference lookup from a Postcode
Postzon* lookup from a Postcode
Address Matching (from an address fragment)

Notes:

- * **Postzon** is an additional dataset that contains grid references, NHS Health Authority and PCT codes and Local/Unitary Authority Ward codes and names.
- 1. Rapid Addressing provides Thoroughfare level (street level) address look up from a full Postcode.
- 2. Address Matching is premise level address look up from any combination of address fragments.
- 3. PAF[®] is the Royal Mail's Postcode Address File of 1.7 million UK Postcodes, 28 million addresses.
- 4. Grid references are not present for some Postcodes on PAF[®] such as PO Box, Channel Isles, Isle of Man and newly allocated addresses.
- 5. We only charge for searches that successfully return data.
- 6. The pricing above is valid from 1st March 2009 to 31st December 2009.
- 7. Royal Mail is currently reviewing the licence with a view to introducing a whole new licence from September 2009. For more information, please visit www.allies-computing.co.uk/licences.html
