	✔	£220	£190	POA
PREMISE LEVEL PAF [®]	✘	£320	£260	POA
	✔	£440	£350	POA

NOTES

- * **Postzon** is an additional dataset that contains grid references, NHS Health Authority and PCT codes and Local/Unitary Authority Ward codes and names.
1. Thoroughfare level (street level) PAF[®] data utilises the Rapid Addressing function which provides address look up from a full Postcode.
 2. A Single user licence allows you to use the software on a single PC or terminal within your company for one year. These licences are not concurrent.
 3. Premise level PAF[®] data utilises the Match Addressing and Get Premise functions and is address look up from any combination of address fragments.
 4. PAF[®] is the Royal Mail's Postcode Address File of 1.7 million UK Postcodes, 28 million addresses.
 5. Premise level PAF data includes all house names and numbers, Organisations, Unit and Flat numbers listed on PAF[®].
 6. A single user licence allows unlimited searches to be performed at the applicable address level within the licence year, by a single PC or workstation.
 7. Per user charges are payable per PC/workstation/terminal up to 26 users after which a System charge applies and usage is unlimited around a single application within one organisation.
 8. Multi-System Licences are priced at three times the System charge and allow unlimited usage at multiple sites for the same application within a single organisation. Please call to discuss.
 9. The pricing above is valid from 1st September 2008 to 1st September 2009. Any licences purchased or renewed during this period will be valid for 12 months only.
 10. It is forbidden to use the Service for batch cleaning of multiple addresses (bureau services). We do offer specific Batch cleaning software, so if you are interested in automated cleaning of your data, please contact us.
 11. Royal Mail is currently reviewing the licence with a view to introducing a whole new licence from September 2009. For more information, please visit www.allies-computing.co.uk/licences.html

All prices are annual, include full Technical Support and all Royal Mail licence fees.
